

## **TOWING POLICY**

Dowse Haulage ltd. permits towing of its own vehicles providing that:

- The Transport Manager has been informed prior to any movement or has been ordered to do so by the emergency services.
- A qualified driver has the appropriate licence for the combination to be towed.
- Has previous towing experience.
- Only suitable towing equipment that has been tested and meant for the job is to be used.
- Use an approved and registered towing specialist
- The vehicle manufacturers permitted maximum towing limits are not exceeded.
- Drivers obey revised speed limits and any other restrictions applicable for towing.

Under no circumstances are Chains, Wire Slings or Ropes to be used in the recovery of any Dowse vehicles from the public highway.

-----  
The company's policy is identical to the above as regards towing in connection with company business in the employee's own vehicle.
