

# Material Safety Data Sheet WD-40 Bulk Liquid

## 1 IDENTIFICATION

Manufacturer: WD-40 Company Limited, PO Box 440, Kiln Farm, Milton Keynes, MK11 3LF  
Tel: 01908 555400 Fax: 01908 266900  
Chemical name: Organic mixture  
Trade name: WD-40 bulk liquid

- 1.1 Chemical characterisation Organic mixture of highly refined mineral oil distillates of special composition, which repels moisture, prevents corrosion, cleans and lubricates.  
1.2 Colour Light amber  
1.3 Odour Weak characteristic odour

## 2 COMPOSITION

The product contains the following materials:

	CAS No	% Weight	EC Number	Symbol	R-Phrases
NAPHTHA (PETROLEUM), HYDROTREATED HEAVY MINERAL OIL	64742-48-9	67%	649-327-00-6	Xn	R10 R65 R66
NON HAZARDOUS INGREDIENT	64742-65-0	21%	265-169-7	--	--
	N/A	<20%	N/A	--	N/A

## 3 HAZARDS IDENTIFICATION

- 3.1 Fire and Explosion  
Flash point: Tag open cup 44° Celsius (minimum)  
Flammable/explosion limits: (Low) 0.6% (High) 8.0%  
(Solvent portion)  
Extinguishing media: CO<sup>2</sup>, dry chemical, foam  
Special fire fighting procedures: See section 5 herein  
Unusual fire and explosion hazards Flammable
- 3.2 Health /Routes of Entry  
Threshold limit value: Hydrocarbon solvent lowest TLV (100ppm)  
Carcinogenic: The product has been assessed by NTP,IARC and OSHA and passed as being non-carcinogenic
- 3.3 Symptoms of Exposure  
Inhalation: May cause anaesthesia, headache, dizziness, nausea and upper respiratory irritation  
Skin contact: May cause drying of skin and/or irritation  
Eye contact: May cause irritation, tears and redness  
Ingestion: May cause irritation, nausea, vomiting and diarrhoea

**DANGER If swallowed can enter lungs and may cause chemical pneumonia. Do not induce vomiting. Obtain medical assistance**

## 4 FIRST AID MEASURES

- SKIN - Wash copiously with soap and water - remove contaminated clothing, including shoes and launder before re-use. If skin irritation develops seek immediate medical attention.
- EYES - As soon as possible irrigate thoroughly with water for at least 15 minutes, holding the eyelids apart. If in any doubt, or the irritation persists, obtain medical attention.
- INHALATION - Ensure that airways are clear and unobstructed. Keep warm and at rest. If there is any difficulty in breathing, or vomiting has occurred obtain medical attention urgently. If breathing stops or shows signs of failing, apply mouth to mouth ventilation.
- INGESTION - In the event of deliberate ingestion help must be obtained urgently.

Keep at rest. *Do not induce vomiting* but seek prompt medical attention. Observe patient in case abdominal pain develops, or patient starts to vomit. Try to keep patient conscious and try to make certain that patient does not aspirate vomit into lungs.

**5 FIRE-FIGHTING MEASURES**

Keep product in storage (and in use) away from sources of ignition. In the event of fire, remove all unaffected product (if possible) away from the immediate vicinity. If necessary cool stocks with water mists. Extinguish burning material with foam, dry powder, CO<sup>2</sup> or halons. **DO NOT USE WATER.**

**6 ACCIDENTAL RELEASE MEASURES**

**6.1 Small Scale Spillages** In the unlikely event of spillages from aerosol cans, place cans in bags or open pail until pressure has dissipated. Aerosol cans must not be punctured or incinerated but disposed of in land fill or in accordance with local regulations. Do not wash WD-40 contamination into drains and waterways. Instead wipe affected areas with white spirit or turpentine substitute and allow to dry. When dry wash affected areas with soapy water to remove any remnants of WD-40. If white spirit cannot be applied, layer with sawdust or absorbent material. Allow to dry and then sweep/shovel into refuse bins and dispose of via public or private waste disposal.

**6.2 Large Scale Spillages** In the event of large roadside transport spillages resulting from collision or overturned vehicles, vehicles must be kept away from contaminated roads or other surfaces. Affected areas should be covered in layers of sawdust or similarly absorbent material. Do not wash into drains, waterways or soil courses. Later remove absorbent material to waste disposal site. Marine spillages should be dealt with in accordance with pollutant procedures which are relevant to the product classification and IMDG codes.

**7 HANDLING AND STORAGE**

**7.1 Special Handling Information**

Ventilation:	Must be sufficient to keep solvent vapour less than TLV
Respiratory protection:	Advised when concentration of solvent vapour exceeds TLV.
Protective gloves:	Advised when skin comes into contact with WD-40 regularly or to prevent possible skin irritation.
Eye protection:	Factory or industrial users are advised to wear protection to guard against potential eye contact.
Other protection equipment:	None required.

**7.2 Special Storage Information**

There is no special storage information relevant to the keeping of WD-40. When left standing a partial separation of oils will occur, for best results agitate drum contents periodically. Local laws and fire inspectorates may also influence storage policies of commercial organisations.

**8 EXPOSURE CONTROLS/PERSONAL PROTECTION**

See Section 7.1 above.

**8.1 General**

Keep product away from sources of ignition, avoid excessive inhalation of spray particles, do not puncture or store container above 50°Celsius, keep away from children.

**8.2 Exposure Limits**

**Exposure Limit (EH40/97)**

# Material Safety Data Sheet WD-40 Bulk Liquid

	8 hour TWA period		10 minute period	
	PPM	mgm -3	PPM	mgm -3
White spirit	100	575	125	720
Mineral oil	---	5	---	---

## 9 PHYSICAL AND CHEMICAL PROPERTIES

Boiling point:	148°Celsius minimum
Vapour density (air = 1):	Greater than 1
Solubility in water:	Insoluble
Specific gravity (H <sub>2</sub> O = 1):	0.817 @ 21°Celsius
Volatile volume (by weight):	78%
Evaporation rate:	Not determined
Vapour pressure:	Not determined
Appearance:	Cloudy light amber
Odour:	Characteristic odour

## 10 STABILITY AND REACTIVITY

Stability:	Considered stable
Conditions to avoid:	N/A
Incompatibility:	Incompatible with strong oxidising agents
Hazardous decomposition:	Thermal decomposition may yield carbon monoxide and/or carbon dioxide.
Hazardous polymerisation:	Will not occur

## 11 TOXICOLOGICAL INFORMATION

Oral toxicity (of liquid):	LD50>5.0g/kg bodyweight (rat)
Biodegradability (including solvent):	Ready biodegradable (84% after 28 days)
This product is classified as Non Toxic to fish.	

## 12 ECOLOGICAL INFORMATION

Biodegradeability:	Readily biodegradeable
Bioaccumulation:	Likely to bioaccumulate
Mobility:	Water: insoluble. Spreads over the surface of water and will slowly evaporate and biodegrade slowly. Non toxic to aquatic organisms. Soil: Small volumes released on land would be absorbed in the upper layers and be biodegraded.
Volatile organic compounds (Weight):	67% of product contains VOCs.
CFCs:	CFC Free since 1981
Tins:	Contain 7% recycled steel and in turn are recyclable
Caps:	High density polypropylene which is recyclable
Corrugated:	Recyclable

## 13 DISPOSAL CONSIDERATIONS

Oil based products should be disposed of to a licensed waste contractor. Any disposal route should comply with local bylaws and the requirements of environmental protection legislation.

## 14 TRANSPORT INFORMATION

Proper shipping name; Petroleum distillates n.o.s. (Naphtha )  
UN number 1268

## 15 REGULATORY INFORMATION

EU Regulations according to directive 1999/45/EC

Symbol(s):

**Harmful**

**Risk Phrases:** R10 - Flammable, R65 - Xn/Harmful, May cause lung damage if swallowed. R66 - Repeated exposure may cause skin dryness or cracking.

**Safety Phrases:** S24 - Avoid contact with skin

## 16 OTHER INFORMATION

We believe the statements, technical information and recommendations contain herein are reliable. However, the data is provided without warranty, expressed or implied. It is the users responsibility both to determine safe conditions for use of this product and assume loss damage or expense, direct or consequential, arising from its use. Before using the product, read information printed on the label.
